LOCAL

We believe in community – our community. We're not a multinational conglomerate of faceless agents who spend days behind desks in remote locations. Our agents are home-grown locals, from neighborhoods just like yours. We understand the local market intimately because we're a part of the local community. We live where you live.

FAIR

We believe in fairness. We know; most insurance companies aren't known for being fair, but we're not most companies. We are committed to helping you recover financially after a loss, because insurance is pointless if it doesn't protect. Our earthquake insurance rates are competitive which means you will never have to go broke paying for our earthquake home insurance policies.

PROMPT

We believe in prompt payouts. You shouldn't have to put your life on hold because of a catastrophe. The bills don't stop coming and the world doesn't stop turning just because you suffer damage to your home, vehicle or business in a natural disaster. When you take out an earthquake home insurance policy with San Andreas Insurance you can continue to live your life while we work to restore normalcy.

San Andreas Insurance Company is a California-based, locally operated insurance company dedicated to providing affordable earthquake insurance rates and exceptional service. With many satisfied policy holders who are more like family than clients (and really, they're family since we're all in the same community), our track record speaks for itself. When you choose protection with us you are joining a community of policy holders who take great service, timely results and affordable premiums for granted, simply because that's all they know. They're spoiled and we don't mind one bit.

We would love to welcome you to our community. If you're in the market for earthquake home insurance, here's what you can expect:
